Dear Darran,

Re: Web Site.

Just a quick letter to thank you and your team, especially James, for the thoroughly professional job you have done with our web site.

Our rough outline and concept image has been turned into a web page that we are very proud of, it has turned out miles better than we ever imagined and we look forward to seeing what you can do with the rest of the site when we have decided how we want to present it.

We also want to thank you for the help and support provided over the past three years with our entire system. Over the years as Blaygrove Ellis has expanded our IT systems have become too complex for us to maintain alone. It is a huge comfort to know that you and your team are just down the road to support us. We regard you almost as part of the company as your advice and suggestions on upgrades or additional hardware have always proven to be exactly what we need.

Should you ever require a reference for another company please feel you can use us, we would have no hesitation in recommending you.

Yours sincerely

Ian Barrett BSc MRICS
Director.
